What makes a good graph?

Deborah Sills

August 18, 2013

Modified from http://www.uwex.edu/ces/csreesvolmon/pdf/trainings/08CSREESDataPresent.pdf

1. Simple, clear, and appropriate axis labels that include units

2. Elements that allow the reader to get the point

3. A legend explaining graph elements

4. A scale appropriate to the data

5. Reveals a story

6. Minimum of clutter
